UAT Release Notes - 2026-04-23 (v1.0.5)

Overview

This release coordinates UI, admin, and API changes across all three MoneyTransfer applications. Highlights: a full Customer Portal UI rework, terminology rename of "Cash Collector" → "Cash Pickup" across all apps, a new DB-driven business-account limit in Switch Account, a ceremony loader for account switching, unmasked phones in the cash beneficiaries list, and several admin bug fixes (auth config exposure, Azure AD crash, privacy-policy hyperlinks, pending-queue actions, transfer-corridor 409).

Customer Portal

PR: [MT-UAT Release - Customer Portal \(2026-04-23\) v1.0.5](#)

#	Work Item	Description	Type
1	MCP_6452	Customer portal UI improvement task	Product Backlog Item
2	MCP_6693	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Product Backlog Item
3	MCP_6721	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Task
4	MCP_6748	Cookie Policy Popup Reappears on Every Login and Blocks Customer Portal Flow	Bug
5	MCP_6750	Restrict business account additions to 5 per user in Switch Account section	Product Backlog Item
6	MCP_6752	Restrict business account additions to 5 per user in Switch Account section	Task
7	MCP_6753	Customer Portal UI Alignment Check & Figma Updates	Product Backlog Item
8	MCP_6754	Customer Portal UI Alignment Check & Figma Updates	Task
9	MCP_6759	Every switch Account limit 10 sec hold - Customer Portal	Task
10	MCP_1584	Every switch Account limit 10 sec hold - Customer Portal	Product Backlog Item

Admin Portal

PR: [MT-UAT Release - Admin Portal \(2026-04-23\) v1.0.5](#)

#	Work Item	Description	Type
1	MAP_3428	Admin Portal - Security / Auth API - Authentication provider configuration exposed	Bug
2	MAP_4061	Azure AD - PR (application crash fix)	Task
3	MAP_6323	Admin - Login: "Terms of Service" and "Privacy Policy" in sign-in consent text not hyperlinked	Bug
4	MAP_6674	AAP - Always enable Hold and Cancel actions in Pending Queue	Product Backlog Item
5	MAP_6693	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Product Backlog Item
6	MAP_6721	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Task

API

PR: [MT-UAT Release - API \(2026-04-23\) v1.0.5](#)

#	Work Item	Description	Type
1	API_6693	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Product Backlog Item
2	API_6721	ALL - Rename "Cash Collector" to "Cash Pickup" across all apps	Task
3	API_6747	Customer Portal - Sender name does not update based on selected profile after Switch Account (Download Receipt)	Bug
4	API_6750	Restrict business account additions to 5 per user in Switch Account section	Product Backlog Item
5	API_6752	Restrict business account additions to 5 per user in Switch Account section	Task
6	API_6753	Customer Portal UI Alignment Check & Figma Updates (return unmasked phone from cash beneficiaries list)	Product Backlog Item
7	API_6754	Customer Portal UI Alignment Check & Figma Updates	Task
8	API_6757	Admin - Corridors > Database Error (409) when creating new Transfer Corridor in Admin Portal	Bug
9	API_6764	Admin - Corridors > Database Error (409) when creating new Transfer Corridor in Admin Portal	Task

Database Migrations

#	File	Type	Summary
1	20260422090000_AddSoftDeleteFilterToTransferCorridorUniqueIndex	EF Migration	Converts the Transfer Corridor unique index to a partial index filtered by IsDeleted = false so soft-deleted rows no longer block re-creation of the same corridor key (fixes API_6757 409 error). Reversible via Down().

Key Highlights

- **Customer Portal UI rework (MCP_6452):** Full refresh of auth, onboarding, KYC, home, recipients, send-money, and review flows — new banners, steppers, account switcher, and dashboard nav. Biggest single UI change in the portal.
- **"Cash Collector" → "Cash Pickup" rename (MCP/MAP/API_6693, 6721):** Coordinated terminology update across Customer Portal, Admin Portal, API data seeder, and README. All user-facing labels, headers, empty states, toasts, and success screens updated.
- **Business account limit in Switch Account (MCP/API_6750, 6752):** New DB-driven limit (`CompanySettings.MaxBusinessAccountsPerUser`) exposed via a new `GET /api/v1/company-settings` endpoint and consumed by the Customer Portal with a 2-minute client-side cache. Constant fallback of 5 if the endpoint is unreachable.
- **10-second ceremony loader on Switch Account (MCP_6759, 1584):** Full-screen overlay with rotating status messages and determinate/indeterminate progress bar; 30-second hard safety timeout so the user is never trapped if the API hangs.
- **Unmasked phones in cash beneficiaries list (MCP/API_6753, 6754):** API now returns `cashCollector.phone` unmasked in the list response. Eliminates the 21-requests-for-20-collectors hydration pattern and the visible flicker.
- **Transfer Corridor 409 fix (API_6757, 6764):** Partial-unique-index migration so soft-deleted corridors no longer block re-creation of the same source/destination key.
- **Admin auth config exposure (MAP_3428):** Reopened bug fix — authentication provider configuration no longer leaks.
- **Admin Azure AD crash fix (MAP_4061):** Application no longer crashes on sign-in flow in Admin Portal.

- **Pending Queue action buttons (MAP_6674):** Hold and Cancel actions are always enabled in the admin pending-queue view.
- **Other bug fixes:** Cookie Policy Popup no longer reappears on every login (MCP_6748); privacy-policy & terms-of-service hyperlinks fixed in admin sign-in (MAP_6323); sender name now updates correctly in downloaded receipts after Switch Account (API_6747).

Release prepared on: 2026-04-23
