## UAT Release Notes - 2026-04-10

### Overview

This release delivers bug fixes across all three applications — Customer Portal, Admin Portal, and API — covering exchange rate management, KYC filtering, transaction status improvements, business profile editing, and send money flow fixes.

### Customer Portal (CP)

PR: [UAT Release - Customer Portal \(2026-04-10\)](#).

| # | Work Item | Description                                                                                 | Type |
|---|-----------|---------------------------------------------------------------------------------------------|------|
| 1 | MCP_6467  | Customer Portal - Amount input auto-triggers Send Money action before user completes typing | Bug  |
| 2 | MCP_6448  | AML Detected Beneficiary Status Not Updated After Edit                                      | Bug  |
| 3 | MCP_6458  | End to End Testing                                                                          | Task |
| 4 | MCP_6469  | AML Detected Beneficiary Status Not Updated After Edit (Task)                               | Task |
| 5 | MCP_6454  | Broken Hyperlinks for Terms & Conditions and Privacy Policy                                 | Bug  |

### Admin Portal (AP)

PR: [UAT Release - Admin Portal \(2026-04-10\)](#).

| #  | Work Item | Description                                                                               | Type |
|----|-----------|-------------------------------------------------------------------------------------------|------|
| 1  | MAP_6499  | ADMIN - Inactive Exchange Rates disappear from UI with no way to reactivate               | Bug  |
| 2  | MAP_6482  | KYC-Approved customer records displayed only under Approve filter, not under All filter   | Bug  |
| 3  | MAP_6503  | ADMIN - "Last Updated" tile fails to refresh after manual rate refresh                    | Bug  |
| 4  | MAP_6481  | Missing "CANCELLED" and "ON HOLD" Statuses in Transaction Filter                          | Bug  |
| 5  | MAP_6256  | Transaction Status Simplification                                                         | PBI  |
| 6  | MAP_6441  | Business Profile Website field is Optional on CP but Required on AP causing edit blockage | Bug  |
| 7  | MAP_6344  | Pending Queue Action Buttons Not Disabled for Transactions in Initiated Status            | Bug  |
| 8  | MAP_6513  | ADMIN - "Last Updated" tile task                                                          | Task |
| 9  | MAP_6456  | Business Profile Website field task                                                       | Task |
| 10 | MAP_6370  | Pending Queue task                                                                        | Task |
| 11 | MAP_6444  | Inline Validation Message Displays Without Trigger-Add Price Rule                         | Bug  |

## API``

PR: [UAT Release - API \(2026-04-10\)](#).

| # | Work Item | Description                                                                       | Type |
|---|-----------|-----------------------------------------------------------------------------------|------|
| 1 | API_6499  | ADMIN - Inactive Exchange Rates disappear from UI with no way to reactivate       | Bug  |
| 2 | API_6503  | ADMIN - "Last Updated" tile fails to refresh after manual rate refresh            | Bug  |
| 3 | API_6446  | Admin-Portal - Price Rule Validation Messages Are Confusing and Not User-Friendly | Bug  |
| 4 | API_6513  | "Last Updated" tile task                                                          | Task |
| 5 | API_6465  | Price Rule Validation Messages task                                               | Task |

---

## Key Highlights

- **Exchange Rate Management:** Fixed critical issue where inactive exchange rates disappeared from the admin UI with no way to reactivate them
  - **Transaction Status Simplification:** Standardised transaction statuses across the platform; added missing CANCELLED and ON HOLD to filter options
  - **KYC Filter Fix:** Approved KYC records now appear under the "All" filter as expected
  - **Send Money Flow:** Fixed amount field auto-triggering Send Money before user finishes typing
  - **Business Profile:** Resolved mismatch between optional/required website field between Customer Portal and Admin Portal
  - **Pending Queue:** Action buttons now correctly disabled for transactions in Initiated status
  - **Rate Refresh:** "Last Updated" timestamp now correctly refreshes after manual rate updates
  - **Price Rule Validation:** Improved validation messages for price rules to be more user-friendly
- 

Release prepared on: 2026-04-10
