7	Registration Flow	Registration follow back return correctly, not block after gender	Completed
8	Admin Profile	Update profile for admin	Completed
9	KYC Document Upload	Document back upload not showing for non-passport ID types fix	Completed

Key Highlights

- **KYC AI Pre-Validation:** Major overhaul across all three apps - AI-based identity pre-validation with Onfido fallback, replacing direct Onfido SDK with embedded KYC service
- **Desktop Notifications:** Bell counter and desktop notification support in Admin Portal and API
- **OTP Security:** Fixed OTP expiry handling and retry control validation
- **Report Fixes:** Revenue report commission display and alignment corrections
- **Business Profile:** Edit functionality bug fix for business profile details
- **Admin UX:** Settings page read-only mode, table heading standardization, beneficiary transaction counts
- **KYC Admin Controls:** Re-verification buttons, AI verification results display, submitted document review
