13	API_6601	Forgot Password - No rate limiting or cooldown enforced on repeated password reset requests	Task
14	API_6303	Forgot Password - No rate limiting or cooldown enforced on repeated password reset requests	Bug

Key Highlights

- **Password Validation:** Fixed whitespace not being trimmed during password match validation across all onboarding and password screens; enforced 8–32 character limit on Reset Password.
- **Session & Auth:** Fixed stale page displayed after logout; fixed admin session not expiring after browser close or inactivity.

- **Address & Beneficiary:** Improved address autocomplete to allow manual city/postcode entry as fallback; fixed deactivated countries not showing on beneficiary edit/view screens.
- **Rates & Pricing:** Fixed Active/Inactive toggle not persisting in the Rates & Pricing module; fixed rate update appearing successful without values actually changing.
- **Payment Distributor Integration:** Fixed 500 errors on PD quote submission and refresh; surfaced PD error messages to the client; added nonce to PD rates service for replay protection.
- **Customer Details Performance:** Fixed customer details page timeout for customers with a high volume of transactions.
- **Security:** Added rate limiting and cooldown to the Forgot Password flow to prevent email bombing.

Release prepared on: 2026-04-16
